Dear Students,

It is with great pleasure that we present to you this question paper document with detailed explanations for the IFSCA Grade A 2023 – Phase 1 Paper 1. This document has been meticulously to serve as a valuable resource for candidates preparing for the IFSCA Grade A Paper 1 2023 Exam.

Aspiring candidates are often confused about the pattern, difficulty level and types of questions that may appear in their upcoming exam.

Each question has been carefully solved, and its underlying concepts and principles have been thoroughly explained. This will help you in not only to practice answering questions but also helps you understand the reasoning and logic behind each correct answer. Through explanations, you will be able to reinforce your understanding, clarify any doubts, and develop a deeper grasp of the subject matter.

We wish you all the best in your exam preparation journey and hope that this document proves to be a valuable asset in your pursuit of success.

Disclaimer: While every effort has been made to ensure the accuracy and relevance of the questions, there can be some variations in the question language and options. Therefore, we encourage you to use these questions as a reference point. This will help you acquire a comprehensive understanding of the syllabus and increase your chances of success in the upcoming IFSCA Grade A Paper 1 2023 Exam.

IFSCA Grade A 2023 - Recollected Questions
Section – Quantitative Aptitude

I.Q1-5) Direction (1-5): What approximate value should come in the place of question mark in the given questions?

Q.1) 37.5% of $239.90 + \sqrt{99.99} = ?$

- A.100
- B.600
- C.500
- D.400
- E.200

Q.2) $840.98 \div 28.99 + ? = 112.08$

- A.73
- B.83
- C.53
- D.63
- E.43

Q.3) $14.98 \times 8.04 + 21.07 \times 30.05 = ?$

- A.675
- B.900
- C.600
- D.780
- E.750

Q.4) $1653.04 \div 57.01 \times 39.93 = ? + 19.98$

- A.1185
- B. 1260
- C. 1140

D.1050

E.1035

Q.5) $18.95 \times \sqrt{224.95} = ? \times \sqrt{25.03}$

A.63

B.69

C.57

D.42

E.60

Q.6) Ratio of the speed of the car to bike is 4:3 and the bike travels 40 km less than the car in the same time duration. What is the distance travelled by car during that time?

A.120 km

B.140 km

C.160 km

D.180 km

E. None of these

Q.7) A shopkeeper bought two articles A and B such that he had a Profit of 15% and 20% on selling article, A and B respectively. Selling price of articles, A and B is Rs.230 and Rs.420 respectively. At what price must that items be sold together in order to gain 30%?

A. Rs.686

B. Rs.695

C. Rs.700

D. Rs.740

E. None of these

Q.8) A boat can travel 90 km upstream and 120 km downstream in 12 hours 30 minutes. What is the speed of the stream, if the boat can travel 60 km downstream in 2 hours 30 minutes?

A. 5 kmph

B. 6 kmph

- C. 8 kmph
- D. 10 kmph
- E. None of these

Q.9) If the product of the present ages of A and B is 864 and the ratio of the ages of A to B is 2:3, then what is A's age after 20 years?

- A. 40 years
- B. 44 years
- C. 48 years
- D. 52 years
- E. None of these

Q.10) A milkman has the mixture of milk and water in the ratio of 3:2. When he sold 20 Liters of the mixture and then added 5 litres of water, then the ratio of the milk to water becomes 8:7. Find the initial quantity of the mixture?

- A. 45 L
- B. 30 L
- C. 60 L
- D. 24 L
- E. None of these

I.Q11-15) Directions (11-15): The following question contains two equations as I and II. You have to solve both equations and determine the relationship between them and give the answer as,

Q.11) (I) $x^2 - 10x - 24 = 0$

(II) $y^2 + 4y + 4 = 0$

- A. $x > y$
- B. $x \geq y$
- C. $x = y$ or relationship can't be determined
- D. $x < y$
- E. $x \leq y$

Q.12) (I) $x^2 - 17x + 52 = 0$

(II) $y^2 - 14y + 45 = 0$

A. $x = y$ or relationship cannot be determined

B. $x \geq y$

C. $x < y$

D. $x > y$

E. $x \leq y$

Q.13) (I) $x^2 - 25x + 84 = 0$

(II) $y^2 - 28y + 147 = 0$

A. $x = y$ or relationship cannot be determined

B. $x \geq y$

C. $x < y$

D. $x > y$

E. $x \leq y$

Q.14) (I) $x^2 - 5x + 6 = 0$

(II) $y^2 - 8y + 15 = 0$

A. $x > y$

B. $x \geq y$

C. $x = y$ or relationship can't be determined

D. $x < y$

E. $x \leq y$

Q.15) (I) $x^2 - 8x + 15 = 0$

(II) $y^2 + y - 12 = 0$

A. $x > y$

B. $x \geq y$

C. $x = y$ or relationship can't be determined

D. $x < y$

E. $x \leq y$

I.Q16-20) Directions (16-20): Read the following information carefully and answer the questions. The given pie chart shows the percentage distribution of total number of orders delivered by Amazon in five different years i.e., 2001, 2002, 2003, 2004 and 2005.

Total number of orders delivered=600

Q.16) Total number of orders delivered in 2005 is how much more/less than total number of orders delivered in 2002?

- A. 120 more
- B. 150 less
- C. 100 more
- D. 180 less
- E. None of these

Q.17) Find the ratio of total number of orders delivered in 2001 and total number of orders delivered in 2004?

- A. 7:4
- B. 3:5
- C. 1:2
- D. 5:4

E. None of these

Q.18) Total number of orders delivered in 2003 is what percentage of total number of orders delivered in 2001?

A. 30%

B. 15%

C. 60%

D. 25%

E. None of these

Q.19) Find the difference between the total number of orders delivered in 2003 and total number of orders delivered in 2005?

A. 70

B. 90

C. 50

D. 80

E. None of these

Q.20) If the ratio of number of orders delivered in 2002 and 2006 is 3:5 and then find the average number of orders delivered in 2004 and 2006 together?

A. 150

B. 170

C. 110

D. 190

E. None of these

Q.21) A can complete the work in 18 days and A and B together can complete the half of the work in 6 days. C is 20% more efficiency than B. In how many days A, B and C together can complete the 84% of the work?

A. 6.5 days

B. 7.2 days

- C. 8.1 days
- D. 4.5 days
- E. None of these

Q.22) There are three sections (A, B and C) in class 6. The average marks scored by 25 students in Section A is 42, average marks scored by 20 students of section B is 39 and average marks scored by 15 students of section C is 30. Find the average of marks of students of 3 sections of class 6?

- A. 36
- B. 38
- C. 34
- D. 32
- E. 40

Q.23) In a bank examination, the number of passed candidates was five times the number of failed candidates. If there had been 40 less candidates appeared and 20 more candidates had failed, then the ratio of passed and failed candidates would have been 3: 1. Then find the total number of failed candidates in the bank examination.

- A. 70
- B. 60
- C. 50
- D. 300
- E. None of these

Q.24) A wire is looped in the form of rectangle whose area is 96 cm^2 and the ratio of the length to breadth of the rectangle is 3:2. If the same wire is looped in the form of circle, what is the area of the circle?

- A. $1400/11 \text{ cm}^2$
- B. $1300/11 \text{ cm}^2$
- C. $1500/11 \text{ cm}^2$
- D. $1200/11 \text{ cm}^2$
- E. None of these

Q.25) Three pipes A, B and C can fill a tank in 12 hours. After working at it together for 3 hours, C is closed and A and B can fill the remaining part of the tank in 15 hours. How much time will the pipe C alone taken to fill the tank?

- A. 24 hours
- B. 26 hours
- C. 32 hours
- D. 30 hours
- E. None of these

Section – Reasoning

I.26-30) Direction: Study the information carefully and answer the question.

Eight persons Alice, Bob, Carol, David, Emily, Frank, George, and Hannah are seated in a linear row, some of them are facing North while others are facing South. Hannah sits second to the left of Emily, who sits at the end of the row. David sits to the immediate right of Alice, who faces the South. Carol sits second to the left of David, who faces the same direction as Emily. Hannah, who is not an immediate neighbor of Alice, faces the opposite direction of Emily. Frank, who is not a neighbor of Emily or Hannah, faces the opposite direction of Carol. Bob faces the South. George sits second to the right of Bob. Emily and George face the same direction. Carol and David do not face the same direction. Emily and George do not sit adjacent to each other.

Q.26) Who sits second to the right of Bob?

- A. Carol
- B. Frank
- C. Hannah
- D. David
- E. George

Q.27) Which one sits at one end of the row?

- A. David
- B. Bob
- C. Frank
- D. Carol
- E. None of these

Q.28) How many people are facing south in a row?

- A. four
- B. two
- C. one
- D. five
- E. three

Q.29) Who faces the same direction as Emily?

- A. Alice
- B. Frank
- C. Hannah
- D. Carol
- E. Bob

Q.30) Who is an immediate neighbor of Alice?

- A. Emily
- B. Carol
- C. Frank
- D. George
- E. Bob

I.31-35) Direction: Study the information carefully and answer the question.

Ten persons, X, Y, Z, M, N, O, P, Q, R, and S, are staying in two different flats, namely Flat Alpha and Flat Beta, in a five-storey building. The lowermost floor is numbered as 1, and the floor immediately above it is numbered as 2, and so on.

Z stays on an odd-numbered floor in Flat Alpha and two floors above R but in different flats. Two floors are between Y and M, who stays in Flat Beta on the topmost floor where both stay in the same flat. Both X and S stay on the same floor, where S neither stays in the same flat as Z nor stays below Y. The number of floors above N is the same as the number of floors below Q. S stays above O, who stays on the adjacent floor of P

Q.31) Who among the following person stays immediately above N?

- A. The one who stays immediately below X
- B. S
- C. R

- D. The one who stays west of Y
- E. None of these

Q.32) On which of the following floor and flat does P stay?

- A. Flat Beta, floor 3
- B. Flat Alpha, floor 2
- C. Flat Beta, floor 1
- D. Flat Alpha, floor 5
- E. Flat Beta, floor 4

Q.33) Four of the following five are alike in a certain way as per the given arrangement and hence form a group. Find the one who doesn't belong to that group.

- A. Q
- B. N
- C. Z
- D. P
- E. X

Q.34) What is the position of Z with respect to N?

- A. Two floors above
- B. Immediately below
- C. Three floors above
- D. Immediately above
- E. None of these

Q.35) How many floors are between Q and O?

- A. One
- B. three
- C. two
- D. More than three
- E. As many floors between Y and R

I.36-40) Direction: Study the following statements and decide which of the given conclusions logically follows from the given statements disregarding the commonly known facts.

Q.36) Statements:

All bread is butter.

No butter is cream.

All cream is bad.

Conclusions:

I. All bread are bad

II. Some bad are butter

A. If only conclusion I follow

B. If only conclusion II follow

C. If neither conclusion I nor conclusion II follows

D. If both the conclusions follow

E. If either conclusion I or conclusion II follows.

Q.37) Statements:

A few plants are not green.

All green are colorful.

No colorful is black.

Conclusions:

I. No black is green.

II. No plant is black.

A. If only conclusion I follow

B. If only conclusion II follow

C. If neither conclusion I nor conclusion II follows

D. If both the conclusions follow

E. If either conclusion I or conclusion II follows.

Q.38) Statements:

No tiger is a dog.

Some rats are tigers.

All domestic are dogs.

Conclusions:

I. No tiger is a rat.

II. All dogs are definitely not tigers.

- A. If only conclusion I follow
- B. If only conclusion II follow
- C. If neither conclusion I nor conclusion II follows
- D. If both the conclusions follow
- E. If either conclusion I or conclusion II follows.

Q.39) Statements:

Some music is videos.

No book is bad.

All books are music.

Some bad are not videos.

Conclusions:

I. All bad being a book is a possibility.

II. Some music is bad.

III. All videos being music is a possibility.

IV. Some books are videos.

- A. If only conclusion I follow
- B. If only conclusion III follow
- C. If only Conclusion I, II, IV follow
- D. If both the conclusions I and IV follow
- E. None follows

Q.40) Statements:

Some metros are trains.

Some metros are lucky.

All lucky is great.

No human is lucky.

All wise are humans.

Conclusions:

I: All metros can be humans.

II: Some lucky are trains

III: Some great that are lucky being wise are a possibility.

IV: Some humans that are wise can be trains

- A. If only conclusion I follow
- B. If only conclusion II follow
- C. If only Conclusion I, II, IV follow
- D. If only conclusion III, IV follow
- E. If only IV follows

I.41-44) Direction: Read the information carefully and answer the question.

Eight persons – Harper, Zane, Nova, Orion, Luna, Atlas, Vega, and Lyra – consist of a family of three generations. There are three females and two married couples in the family. For every person in the family, either both or none of the parents are alive.

Zane's sister-in-law is the mother of Atlas. Vega is an unmarried female. Atlas's mother doesn't have any siblings. Harper is the mother-in-law of Orion, who is the mother of two children. Nova is the grandfather of Atlas, who is the nephew of Luna.

Q.41) Who is the sister-in-law of Zane?

- A. Luna
- B. Veg
- C. Orion
- D. Harper
- E. None of these

Q.42) How is Luna related to Harper?

- A. daughter
- B. son
- C. daughter-in-law
- D. nephew
- E. cannot be determined

Q.43) Who is the husband of Orion?

- A. Zane
- B. Luna
- C. Lyra
- D. Nova
- E. Atlas

Q.44) How many children does Lyra have?

- A. None
- B. three
- C. one
- D. two
- E. None of these

I.45-49) Direction: Study the information carefully and study the following question.

10 persons Ethan, Olivia, Rohan, Liam, Norah, Mia, Harper, Isabella, Daniel and Ava performed in a competition on 12th and 23rd of each month among June, July, August, September and October such that only one person performed on a date of a month.

Mia and Liam performed on the same dates but in different months. Ethan's performance was immediately after that of Liam. Only three performances happened between the performances of Ethan and Olivia, who performed on an even-numbered date of the month having only 30 days. Olivia performed before Liam. Four performances happened in between the performances of Ava and Mia. Harper performed on an odd-numbered date of the month having 31 days but not in August. Three performances happened between the performances of Harper and Noah. Daniel and Isabella performed on consecutive turns but in different months. Daniel did not perform in a month whose total number of days is even.

Q.45) How many performances happened between the performances of Daniel and Harper?

- A. two
- B. four
- C. none
- D. one
- E. three

Q.46) In which month did Harper inform?

- A. June
- B. October
- C. September
- D. July
- E. None of these

Q.47) Who performed immediately after Noah?

- A. Harper
- B. Ethan
- C. Isabella
- D. Ava
- E. Mia

Q.48) How many persons performed before Olivia?

- A. three
- B. four
- C. one
- D. none
- E. two

Q.49) Find the odd one out

- A. Ava

- B. Harper
- C. Noah
- D. Liam
- E. Mia

Q.50) If it is possible to make a meaningful word without repetition of the letter with the second, fifth, sixth and seventh letter of the word 'PERMUTATION' which would be the second letter of the word from right. If more than one such word can be formed, give X as the answer. If no such word is formed, give Z as the answer.

- A. E
- B. U
- C. A
- D. X
- E. Z

Section – English

Direction: Read the following passage carefully and answer the questions that follow. Certain words are printed in bold to help you locate them easily while answering some questions.

The economy of India is the sixth-largest in the world measured by nominal GDP and the third-largest by purchasing power parity (PPP). The country is classified as a newly industrialised country, and one of the G-20 major economies, with an average growth rate of approximately 7% over the last two decades. India's economy became the world's fastest growing major economy in the last quarter of 2014, surpassing the People's Republic of China. However, the country ranks 141st in per capita GDP (nominal) with \$1723 and 123rd in per capita GDP (PPP) with \$6,616 as of 2016.

The long-term growth prospective of the Indian economy is positive due to its young population, corresponding low dependency ratio, healthy savings and investment rates, and increasing integration into the global economy. India topped the World Bank's growth outlook for the first time in fiscal year 2015–16, during which the economy grew 7.6%. Growth is expected to have declined slightly to 7.1% for the 2016–17 fiscal year. According to the IMF, India's growth is expected to rebound to 7.2% in the 2017–18 fiscal and 7.7% in 2018–19. The combination of protectionist, import-substitution, Fabian socialism, and social democratic-inspired policies governed India for some time after the end of British occupation. The economy was then characterised by extensive regulation, protectionism, public ownership of large monopolies, pervasive corruption and slow growth. Since 1991, continuing economic liberalisation has moved the country towards a

market-based economy. By 2008, India had established itself as one of the world's fastest-growing economies.

The citizens of the Indus Valley Civilisation, a permanent settlement that flourished between 2800 BC and 1800 BC, practised agriculture, domesticated animals, used uniform weights and measures, made tools and weapons, and traded with other cities. Evidence of well-planned streets, a drainage system and water supply reveals their knowledge of urban planning, which included the first-known urban sanitation systems and the existence of a form of municipal government.

Maritime trade was carried out extensively between South India and Southeast and West Asia from early times until around the fourteenth century AD. Both the Malabar and Coromandel Coasts were the sites of important trading centres from as early as the first century BC, used for import and export as well as transit points between the Mediterranean region and Southeast Asia. Over time, traders organised themselves into associations which received state patronage. Historians Tapan Raychaudhuri and Irfan Habib claim this state patronage for overseas trade came to an end by the thirteenth century AD, when it was largely taken over by the local Parsi, Jewish, Syrian Christian and Muslim communities, initially on the Malabar and subsequently on the Coromandel Coast. Other scholars suggest trading from India to West Asia and Eastern Europe was active between the 14th and 18th centuries. During this period, Indian traders settled in Surakhani, a suburb of greater Baku, Azerbaijan. These traders built a Hindu temple, which suggests commerce was active and prosperous for Indians by the 17th century.

Q.51) Which of these is the reason for the positive long term growth prospective of the Indian economy?

- A. young population
- B. corresponding low dependency ratio
- C. healthy savings and investment rates
- D. increasing integration into the global economy
- E. All of the above

Q.52) Which sites were used as transit points between the Mediterranean region and Southeast Asia in the 14th century AD?

- A. Andaman and Nicobar Islands
- B. New Delhi
- C. Burma coast
- D. the Malabar and Coromandel Coasts
- E. Port Blair

Q.53) According to the above passage, which of the following have moved India towards a market-based economy?

- A. Capitalism
- B. Socialism
- C. Economic liberalization
- D. Demonetization
- E. Centralization of banks

Q.54) According to the passage, which historic evidence suggest that commerce Indians had active and prosperous commerce in the 17th century?

- A. The ruins of Indus valley civilization
- B. Hindu temple in Azerbaijan
- C. The Taj Mahal
- D. Involvement of Indian soldiers in world war 2
- E. None of these

Q. 55) According to the passage which of the following was a catalyst for slow economic growth after the end of British occupation?

- A. Corruption
- B. Demonetization
- C. Floods
- D. Communism
- E. None of these

Q.56) On the basis of your reading choose an appropriate title for the passage.

- A. Communism in India
- B. End of poverty in Indian
- C. Indian economy in tatters
- D. Economy of India

E. None of these

Q.57) Choose the word/group of words which is MOST SIMILAR to the word/group of words printed in bold as used in the passage.

SUBSEQUENTLY

A. Previously

B. Thereafter

C. Alarmingly

D. Diseased

E. None of these

Q.58) Choose the word/group of words which is MOST SIMILAR to the word/group of words printed in bold as used in the passage.

PATRONAGE

A. Liberal

B. Narcissistic

C. Decentralized

D. Nepotism

E. Colony

Direction: In the given question, a part of the sentence is printed in bold. Below the sentence alternatives to the bold part are given at (A), (B), (C) and (D) which may help improve the sentence. Choose the correct alternative. In case the given sentence is correct, your answer is (E) i.e., 'No correction required'.

Q.59) The recent strike has put the airline company in a *mouse potato*.

A. Raptures

B. Warm Potato

C. Tight Spot

D. Much ado about nothing

E. No correction required

Q.60) We need to get to **the last straw – and know what caused the accident.**

A. Heart of the matter

B. Piece of cake

C. Whole nine yards

- D. Heart of the issue
- E. No correction required

Q.61) I haven't been to the theatre in **a long run**.

- A. Best of both worlds
- B. Method to my madness
- C. Cry over spilt milk
- D. In the month of Sundays
- E. None of these

Q.62) We need to know if he's qualified for the job. The fact that he plays golf is **beside the point**.

- A. Miss the boat
- B. Keeping something at bay
- C. Drastic times call for drastic measures
- D. Miss the train
- E. No correction required

Q.63) The president was greeted with **much brainwash**, a gesture that was appreciated by the whole global community.

- A. Best of both worlds
- B. Brain drain
- C. Ballpark figure
- D. Bowing and scraping
- E. No correction required

Direction: In the given question, a statement with a blank has been given, followed by three words out of which more than one can complete the sentence grammatically and contextually. Find the word (s) which can fill the blank and choose the option accordingly.

Q.64) Thoughts may _____, but it's within your power to return to your focus to a religious icon, a helpful saying, or the simple rise and fall of your chest.

- I) Wander
- II) Wonder
- III) Distracts

- A. Only II

- B. Only I
- C. Only III
- D. Both I & II
- E. Both I & III

Q.65) Distraction is the process of _____ the attention of an individual or group from a desired area of focus and thereby blocking or diminishing the reception of desired information.

- I) Diverting**
- II) Distancing**
- III) Deviating**

- A. Only II
- B. Only I
- C. Only III
- D. Both I & II
- E. Both I & III

Q.66) _____ web surfing, watching videos, playing games, or checking news feeds can lead to lower productivity at work or school and isolate you for hours at a time.

- I) Compulsive**
- II) Obsessive**
- III) Narcotic**

- A. Only II
- B. Only I
- C. Only III
- D. Both I & II
- E. Both I & II

Q.67) Mr K.C. Paul is _____ in his belief that the sun is spinning around the earth.

I) Firm

II) Confident

III) Hasten

A. Only II

B. Only I

C. Only III

D. Both I & II

E. Both III & II

Q.68) After much thought, Manisha _____ not to travel abroad this summer.

I) resolved

II) decided

III) concluded

A. Only II

B. Only I

C. Only III

D. Both I & II

E. All I, II & III

Direction: A sentence divided into three parts (I, II and III) is given. There may be an error in one or more parts. Determine the part(s) which requires correction and mark the relevant option as your answer.

Q.69) Literature often has a tendency to portray (I)/ the women as either the good protagonist or the villain, (II)/ but in reality, women are mostly grey by nature. (III)

A. Only I

- B. Only II
- C. Only III
- D. Both I & III
- E. Both II & II

Q.70) Can the French be so enormously superior than (I)/ us that when we had surrounded them with superior forces, (II)/ we could not beat them?(III)

- A. Only I
- B. Only II
- C. Only III
- D. Both I & III
- E. Both II & II

Q.71) One night he left the big, beautiful palace (I)/ which his father had gave to him and went out into the world (II)/ to do good and to help his fellow men. (III)

- A. Only I
- B. Only II
- C. Only III
- D. Both I & III
- E. Both I & II

Q.72) Miss Sullivan and others who live constantly with the deaf (I)/ can spell very rapidly - fast enough to get a slow lecture, (II)/ but not very enough to get every word of a rapid speaker. (III)

- A. Only I
- B. Only II
- C. Only III

D. Both I & III

E. Both I & II

Q.73) Majority of the Delhites, alarmed by the recent events are saying that (I)/ they will not bursting crackers and (II)/ farther pollute the environment which is harming their progeny the most. (III)

A. Only I

B. Only II

C. Only III

D. Both II & III

E. Both I & II

Direction: In this question, two columns, I and II and three sentences are given, which are divided into two parts. Column I (A, B and C) consists of the first half of each sentence and Column II (D, E and F) consists of the second half of each sentence. Match column I with column II, so that the sentences formed are both meaningful and grammatically correct. Choose the option as your answer.

Q.74)

I.

A) The company will now attempt to get back the value invested in those schemes either

B) After an organized abandonment of the unorganized workforce, the employers want the state to

C) What we are witnessing today bears a horrifying

II.

D) by selling the underlying assets and waiting for them to reach maturity.

E) reintroduce laissez-faire and a system of indenture for the organized workforce too.

F) resemblance to what happened over 150 years ago in British India.

A. B-E and C-F

B. C-E

C. A-F and C-E

D. B-F and C-D

E. A-D

Q.75)

I.

A) The investigation established that Movianto had temporarily stored

B) Amid complaints of dire shortages in hospitals, the company was

C) The stockpile was relocated to a warehouse in Merseyside,

II.

D) the emergency pandemic equipment in a smoke-damaged warehouse.

E) where it was kept in a very unorganised and dismal manner.

F) order to begin providing equipment to healthcare centres.

A.B-E and C-F

B.C-E

C.A-F and C-D

D.B-F

E.A-D and C-E

Section – General Awareness

Q.76) A penalty of _____ has been imposed by SEBI on Multi Commodity Exchange (MCX) for flouting norms related to data entries of Sikkim-based clients?

- A. ₹2 lakh
- B. ₹4 lakh
- C. ₹5 lakh
- D. ₹6 lakh
- E. None of these

Q.77) How many complaints against companies and market intermediaries received through SCORES platform was disposed of in February according to the data provided by SEBI?

- A. 2672
- B. 2699
- C. 2782
- D. 2790
- E. None of these

Q.78) Name the bank whose finance arm has received capital markets regulator SEBI's nod to raise up to ₹2,500 crore through rights issue of shares?

- A. State Bank of India
- B. Indian Overseas Bank
- C. Punjab National Bank
- D. Bank Of India
- E. Bank of Baroda

Q.79) An 'Infrastructure Finance Company (IFC)' status has been granted to which renewable energy company by Reserve Bank of India (RBI)?

- A. Indian Renewable Energy Development Agency (IREDA)
- B. Solar Energy Corporation of India (SECI)
- C. National Institute of Wind Energy (NIWE)
- D. National Institute of Solar Energy (NISE)
- E. None of these

Q.80) How much liquidity has been infused into the banking system by Reserve Bank of India (RBI) via the 14-day Variable Repo Rate (VRR) auction amid tightening liquidity.

- A. Rs.81,630 crore
- B. Rs.82,650 crore
- C. Rs.80,600 crore
- D. Rs.86,650 crore
- E. None of the above

Q.81) A fine of ₹3.06 crores imposed by RBI on which company?

- A. PhonePe
- B. Paytm
- C. Slice
- D. Amazon Pay
- E. None of the above

Q.82) As per Centre for Monitoring Indian Economy, all India unemployment rate remained elevated in February 2023 and rose to _____ from 7.14% in the previous month.

- A. 7.25 %
- B. 7.45 %
- C. 8.50 %
- D. 6.75 %
- E. None of the above

Q.83) According to data provided by the Ministry of Statistics and Programme Implementation (MoSPI), the indian economy grew at _____ between October and December 2022 (Q3FY23).

- A. 4.4 %
- B. 4.0 %
- C. 4.6 %
- D. 5.3 %
- E. 6 %

Q.84) According to Reserve Bank of India, the bank credit growth stood at _____ for 3 months ending December 2022.

- A. 14.5 %
- B. 16.8 %
- C. 14.8 %
- D. 17.1 %
- E. None of the above

Q.85) Wholesale price index (WPI)-based inflation rate fell to _____ in February, according to the data by the Ministry of Commerce and Industry.

- A. 3.14 %
- B. 3.25 %
- C. 4.85 %
- D. 3.85 %
- E. 2.95 %

Q.86) As per UK-based Brand Finance list, which telecom brand is ranked as the most valuable brand globally?

- A. Reliance Jio
- B. Airtel
- C. Swisscom
- D. Singtel
- E. Verizon

Q.87) Moody's Investors Service has revised India's growth estimate for 2022 to _____ from 7 per cent pegged in November 2022.

- A. 6.8 %
- B. 6.4 %
- C. 7.2 %
- D. 7.8 %
- E. 7.0 %

Q.88) _____ and Federal Bank will partner with association of microfinance institutions Sa-Dhan and Delhi-based fintech solutions provider NextGen to promote digital payments by feature phone users.

- A. IDFC First Bank
- B. Kotak Mahindra Bank
- C. Yes Bank
- D. Bank of Maharashtra
- E. None of these

Q.89) Multilateral exercise La Perouse (3rd Edition) is being organized from 13 to 14 March 2023 in the Indian Ocean region. Which among the following countries organized the third edition of the 'La Perouse' Exercise?

- A. India
- B. Germany
- C. France
- D. Japan
- E. Italy

Q.90) State the theme of World Wildlife Day 2023?

- A. Youth Effort for Wildlife Conservation
- B. Partnership for Wildlife Conservation
- C. Partnership for Green Wildlife
- D. Wildlife Conservation for Earth
- E. Only One Earth

Q.91) Who has been elected as the new President of Vietnam?

- A. Vo Van Thuong
- B. Nguyen Xuan Phuc
- C. Pham Minh Chinh
- D. Vuong Dinh Hue
- E. None of the above

Q.92) ____ partnered with Aadhar Housing Finance to offer home loans for salaried employees, loan for plot purchase and construction, home improvement loan, loan against residential commercial property etc.

- A. Bank of Baroda
- B. Yes Bank
- C. HDFC Bank
- D. Axis Bank

E. Union Bank of India

Q.93) Badri Narayan received the prestigious literary award Sahitya Akademi Award, 2022 for?

- A. Seven Moons of Maali Almeida
- B. Tomb of Sand
- C. Rashmirathi
- D. Malgudi Days
- E. Tumadi Ke Shabd

Q.94) Who among the following has been honoured with the 'Player of the Year Award' by the Asian Chess Federation?

- A. Praggnanandhaa R
- B. Krishnan Sasikiran
- C. D Gukesh
- D. Vidit Gujrathi
- E. Nihal Sarin

Q.95) As per direction of SEBI the issue summary document for filing papers pertaining to IPO and for further issue of securities in XBRL format which is to be done in a phased manner starting_____

- A. March 31,2023
- B. December 1,2023
- C. July 1,2023
- D. March 1,2023
- E. January 1,2023

Q.96) PM Modi releases the 13th installment of financial benefits worth _____ to over eight crore eligible farmers under the flagship PM-KISAN scheme.

- A. Rs.16,800 crore
- B. Rs.14,200 crore
- C. Rs.12,800 crore

- D. Rs.10,200 crore
- E. Rs.19,200 crore

Q.97) Second global hackathon -- 'HARBINGER 2023 - Innovation for Transformation' announced by Reserve Bank of India with the theme -

- A. Inclusive Digital Stimulation
- B. Inductive Digital Solution
- C. Inclusive Machine Solution
- D. Inclusive Digital Services
- E. Good Financial Behaviour - Your Saviour

Q.98) Name the first private sector bank to take up a service that allows customers to use RuPay credit cards on UPI with BHIM and other UPI - enabled apps.

- A. Axis Bank
- B. Kotak Mahindra Bank
- C. HDFC Bank
- D. ICICI Bank
- E. IDBI Bank

Q.99) Financial Literacy Week 2023 organized by Reserve Bank of India will be held from _____?

- A. 10th to 14th February 2023
- B. 11th to 18th February 2023
- C. 12th to 15th February 2023
- D. 10th to 17th February 2023
- E. 13th to 17th February 2023

Q.100) Direct Tax Collections for F.Y. 2022 - 23 at ₹15 .67 lakh crore – which is _____ % higher than gross collections for corresponding period of last year as on 10.02. 2023.

- A. 20.32
- B. 24.09

- C. 25.05
- D. 24.80
- E. 25.04

IFSCA Grade A 2023 - Recollected Questions

Explanations

Section – Quantitative Aptitude

Q.1) Explanation

$$37.5\% \text{ of } 239.90 + \sqrt{99.99} = ?$$

$$3/8 \times 240 + 10 = ?$$

$$=> 90 + 10 = ?$$

$$=> ? = 100$$

Q.2) Explanation

$$840.98 \div 28.99 + ? = 112.08$$

$$841/29 + ? = 112$$

$$29 + ? = 112$$

$$? = 83$$

Q.3) Explanation $15 \times 8 + 21 \times 30 = ?$

$$120 + 630 = ?$$

$$750 = ?$$

Q.4) Explanation $? = 1653 \div 57 \times 40 - 20$

$$? = 29 \times 40 - 20$$

$$? = 1160 - 20$$

$$? = 1140$$

Q.5) Explanation $18.95 \times \sqrt{224.95} = ? \times \sqrt{25.03}$

$$19 \times \sqrt{225} = ? \times \sqrt{25.03}$$

$$19 \times 15 = ? \times 5$$

$$? = 19 \times 3$$

$$? = 57$$

Q.6) Explanation

$$\text{Distance} = \text{speed} \times \text{time}$$

$$\text{Time} = \text{distance} / \text{speed}$$

Let the distance travelled by car = d

$$d/4x = (d - 40)/3x$$

$$3d = 4d - 160$$

$$4d - 3d = 160$$

$$\text{Distance} = 160 \text{ km}$$

Q.7) Explanation

$$\text{SP of A} = 230$$

$$\text{Profit\% on A} = 15\%$$

$$\text{CP of A} = 230 \times 100/115 = 200$$

$$\text{SP of B} = 420$$

$$\text{Profit\% on B} = 20\%$$

$$\text{CP of B} = 420 \times 100/120 = 350$$

$$\text{Total CP} = 200 + 350 = 550$$

Now, to earn a total profit of 30% on both item together, selling price = 130% of 550 = Rs.715

Q.8) Explanation

Let the speed of upstream be x km

$$\text{Distance} = \text{speed} \times \text{time}$$

$$\text{Downstream speed} = 60/2.5 = 24 \text{ kmph}$$

A.T.Q

$$120/24 + 90/x = 12.5$$

$$90/x = 12.5 - 5$$

$$x = 12 \text{ kmph}$$

$$\text{Speed of the upstream} = 12 \text{ kmph}$$

$$\text{Speed of the stream} = \frac{1}{2} \times (24 - 12)$$

$$\text{Speed of Stream} = 6 \text{ kmph}$$

Q.9) Explanation

Let the Present age of A be $2x$

Let the Present age of B be $3x$

The product of the present ages of A and B is 864

$$2X \times 3X = 864$$

$$X^2 = 144$$

$$X = 12 \text{ years}$$

$$\text{A's present age} = 2 \times 12 = 24 \text{ years}$$

$$\text{After 20 years A's age} = 24 + 20 = 44 \text{ years}$$

Q.10) Explanation

$$\text{Milk in 20 liters} = \frac{3}{5} \times 20 = 12 \text{ liters}$$

$$\text{Water in 20 liters} = \frac{2}{5} \times 20 = 8 \text{ liters}$$

$$(3x - 12) / (2x - 8 + 5) = 8/7$$

$$21x - 84 = 16x - 24$$

$$x = 12$$

$$\text{Initial quantity of the mixture} = 5x = 5 \times 12 = 60 \text{ liters}$$

Q.11) Explanation

$$X^2 - 10x - 24 = 0$$

$$X^2 - 12x + 2x - 24 = 0$$

$$x(x - 12) + 2(x - 12) = 0$$

$$(x + 2)(x - 12) = 0$$

$$x = -2, 12$$

$$y^2 + 4y + 4 = 0$$

$$y^2 + 2y + 2y + 4 = 0$$

$$y(y + 2) + 2(y + 2) = 0$$

$$(y + 2)(y + 2) = 0$$

$$y = -2, -2$$

$$x \geq y$$

Q.12) Explanation

$$x^2 - 17x + 52 = 0$$

$$X^2 - 13x - 4x + 52 = 0$$

$$(x - 13)(x - 4) = 0$$

$$x = 13, 4$$

$$\text{II. } y^2 - 14y + 45 = 0$$

$$Y^2 - 9y - 5y + 45 = 0$$

$$(y - 9)(y - 5) = 0$$

$$y = 9, 5$$

Hence the relationship cannot be determined.

Q.13) Explanation

$$X^2 - 25x + 84 = 0$$

$$X^2 - 21x - 4x + 84 = 0$$

$$x(x - 21) - 4(x - 21) = 0$$

$$x = 21, 4$$

$$y^2 - 28y + 147 = 0$$

$$y^2 - 21y - 7y + 147 = 0$$

$$y(y - 21) - 7(y - 21) = 0$$

$$y = 7, 21$$

The relationship between x and y cannot be established.

Q.14) Explanation

$$X^2 - 5x + 6 = 0$$

$$X^2 - 2x - 3x + 6 = 0$$

$$x(x - 2) - 3(x - 2) = 0$$

$$(x - 3)(x - 2) = 0$$

$$x = 3, 2$$

$$y^2 - 8y + 15 = 0$$

$$y^2 - 5y - 3y + 15 = 0$$

$$y(y - 5) - 3(y - 5) = 0$$

$$(y - 3)(y - 5) = 0$$

$$y = 3, 5$$

Hence, $x \leq y$

Q.15) Explanation

$$x^2 - 8x + 15 = 0$$

$$x^2 - 3x - 5x + 15 = 0$$

$$x(x - 3) - 5(x - 3) = 0$$

$$(x - 5)(x - 3) = 0$$

$$x = 3, 5$$

$$y^2 + y - 12 = 0$$

$$y^2 + 4y - 3y - 12 = 0$$

$$y(y + 4) - 3(y + 4) = 0$$

$$(y - 3)(y + 4) = 0$$

$$y = 3, -4$$

$$x \geq y$$

Q.16) Explanation

Total number of orders delivered in 2001 = $600 \times 25 / 100 = 150$

Total number of orders delivered in 2002 = $600 \times 10 / 100 = 60$

Total number of orders delivered in 2003 = $600 \times 15 / 100 = 90$

Total number of orders delivered in 2004 = $600 \times 20 / 100 = 120$

Total number of orders delivered in 2005 = $600 \times 30 / 100 = 180$

Year	Total number of orders delivered
2001	150
2002	60
2003	90
2004	120
2005	180

Required difference=180-60=120 more

Q.17) Explanation

Total number of orders delivered in 2001= $600 \times 25/100 = 150$

Total number of orders delivered in 2002= $600 \times 10/100 = 60$

Total number of orders delivered in 2003= $600 \times 15/100 = 90$

Total number of orders delivered in 2004= $600 \times 20/100 = 120$

Total number of orders delivered in 2005= $600 \times 30/100 = 180$

Year	Total number of orders delivered
2001	150
2002	60
2003	90
2004	120
2005	180

Required ratio=150:120=5:4

Q.18) Explanation

Total number of orders delivered in 2001= $600 \times 25 / 100 = 150$

Total number of orders delivered in 2002= $600 \times 10 / 100 = 60$

Total number of orders delivered in 2003= $600 \times 15 / 100 = 90$

Total number of orders delivered in 2004= $600 \times 20 / 100 = 120$

Total number of orders delivered in 2005= $600 \times 30 / 100 = 180$

Year	Total number of orders delivered
2001	150
2002	60
2003	90
2004	120
2005	180

$$\text{Required percentage} = \frac{90}{150} \times 100 = 60\%$$

Q.19) Explanation

Total number of orders delivered in 2001= $600 \times 25 / 100 = 150$

Total number of orders delivered in 2002= $600 \times 10 / 100 = 60$

Total number of orders delivered in 2003= $600 \times 15 / 100 = 90$

Total number of orders delivered in 2004= $600 \times 20 / 100 = 120$

Total number of orders delivered in 2005= $600 \times 30 / 100 = 180$

Year	Total number of orders delivered
2001	150
2002	60
2003	90
2004	120
2005	180

Required difference=180-90=90

Q.20) Explanation

Total number of orders delivered in 2001= $600 \times 25 / 100 = 150$

Total number of orders delivered in 2002= $600 \times 10 / 100 = 60$

Total number of orders delivered in 2003= $600 \times 15 / 100 = 90$

Total number of orders delivered in 2004= $600 \times 20 / 100 = 120$

Total number of orders delivered in 2005= $600 \times 30 / 100 = 180$

Year	Total number of orders delivered
2001	150
2002	60
2003	90
2004	120
2005	180

Total number of orders delivered in 2006= $60 \times 5 / 3 = 100$

Required average= $(100+120)/2=110$

Q.21) Explanation

$$A = 1/18$$

$$A + B \text{ complete the whole work} = 1/12$$

$$B = 1/12 - 1/18 = 3 - 2/36 = 1/36$$

$$C = 36 \times 5/6 = 30 \text{ days}$$

$$A + B + C = 1/18 + 1/36 + 1/30$$

$$= (10 + 5 + 6)/180$$

$$= 21/180$$

$$= 7/60$$

$$A + B + C \text{ together can complete } 84\% \text{ of the work} = 84/100 \times 60/7$$

$$= 12 \times 3/5 = 7.2 \text{ days}$$

Q.22) Explanation

$$\text{Total marks scored in section A} = 25 \times 42 = 1050$$

$$\text{Total marks scored in section B} = 20 \times 39 = 780$$

$$\text{Total marks scored in section C} = 15 \times 30 = 450$$

$$\text{Required average} = (1050 + 780 + 450)/60 = 38$$

Q.23) Explanation

Let the number of failed candidates = X.

Number of passed candidates = 5X.

Total candidates = X + 5X = 6X.

Now total number of candidates if 40 fewer candidates appeared = 6X - 40. Number of failed candidates if 20 more had failed = X + 20.

$$\text{Number of passed candidates} = (6X - 40) - (X + 20) = 5X - 60$$

According to question,

Number of passed/Number of failed = 3: 1

$$(5X - 60)/(X+20) = 3: 1$$

$$5X - 60 = 3X + 60$$

$$2X = 120$$

$$X = 60$$

Therefore, number of failed candidates = 60.

Q.24) Explanation

Perimeter of the rectangle = circumference of the circle

Area of the rectangle = $L \times B$

$$96 = 3X \times 2X$$

$$6X^2 = 96$$

$$X = 4 \text{ cm}$$

Perimeter of the rectangle = $2 \times (l + b)$

$$= 2 \times (12 + 8)$$

$$= 40 \text{ cm}$$

Perimeter of the circle = $2\pi r$

$$\Rightarrow 40 = 2 \times \frac{22}{7} \times r$$

$$\frac{70}{11} = r$$

Area of the circle = $\frac{22}{7} \times \frac{70}{11} \times \frac{70}{11}$

$$= 1400/11 \text{ cm}^2$$

Q.25) Explanation

A, B and C's 3-hour work = $\frac{3}{12} = \frac{1}{4}$

Remaining work = $1 - (\frac{1}{4}) = \frac{3}{4}$

The remaining part will be filled by A and B in 15 hours. Then,

$$\Rightarrow (\frac{3}{4}) \times (A+B) = 15$$

$$\Rightarrow (A+B)'s \text{ whole work} = 15 \times (\frac{4}{3}) = 20 \text{ hr}$$

(A+B)'s 1 hour work = $\frac{1}{20}$

A, B and C's 1 hour work = $\frac{1}{12}$

C's 1 hour work = $(A + B + C) - (A+B)$

$\Rightarrow \frac{1}{12} - \frac{1}{20}$

$\Rightarrow \frac{1}{30}$

C can fill the tank in 30 hours

Section – Reasoning

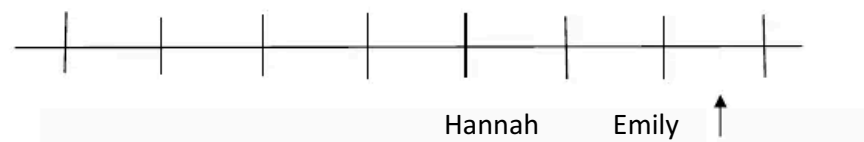

Q.26) Explanation

Hannah sits second to the left of Emily, who sits at the end of the row.

case1

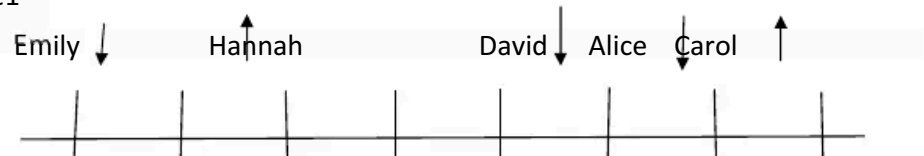

case2

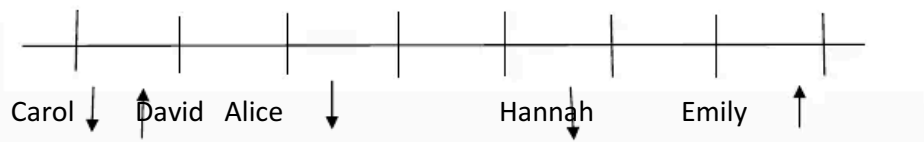

David sits to the immediate right of Alice, who faces the South. Carol sits second to the left of David, who faces the same direction as Emily. Hannah, who is not an immediate neighbor of Alice, faces the opposite direction of Emily.

case1

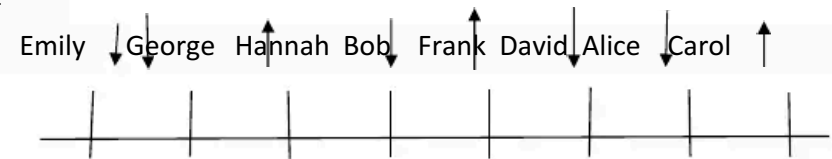

case2

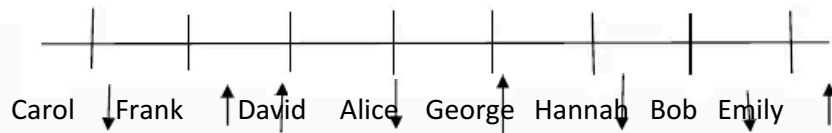

Frank, who is not a neighbor of Emily or Hannah, faces the opposite direction of Carol. Bob faces the South. George sits second to the right of Bob. Emily and George face the same direction. Carol and David do not face the same direction.

case1

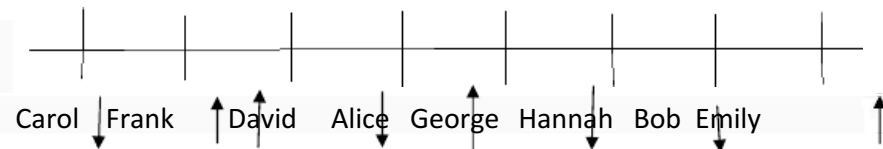

case2

Emily and George do not sit adjacent to each other. So, case 1 is canceled out.

Final solution:

case2

Q.27) Explanation

Hannah sits second to the left of Emily, who sits at the end of the row.

case1

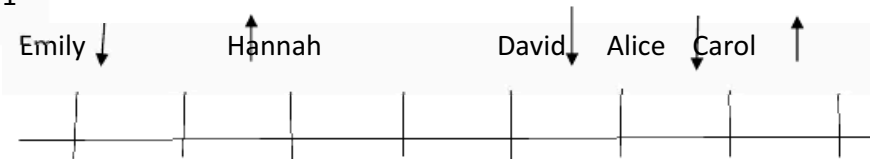

case2

David sits to the immediate right of Alice, who faces the South. Carol sits second to the left of David, who faces the same direction as Emily. Hannah, who is not an immediate neighbor of Alice, faces the opposite direction of Emily.

case1

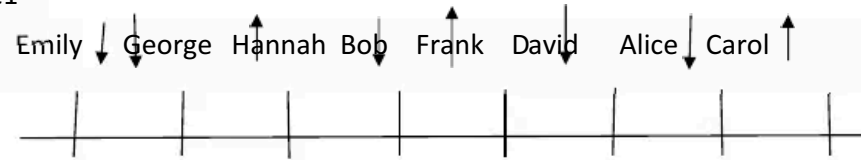

case2

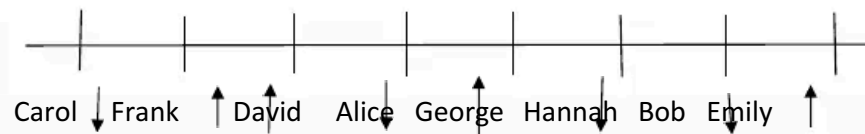

Frank, who is not a neighbor of Emily or Hannah, faces the opposite direction of Carol. Bob faces the South. George sits second to the right of Bob. Emily and George face the same direction. Carol and David do not face the same direction.

case1

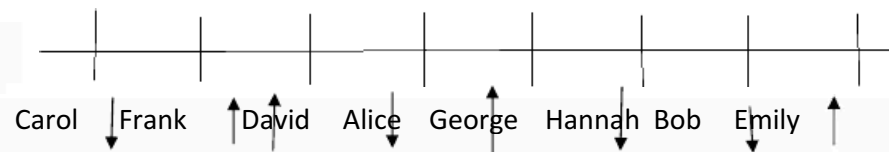

case2

Emily and George do not sit adjacent to each other. So, case 1 is canceled out.

Final solution:

case2

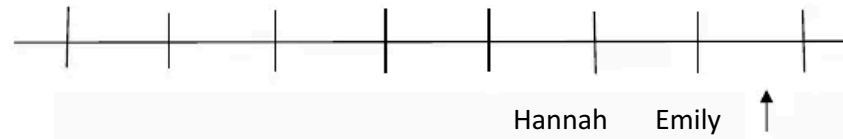

Q.28) Explanation

Hannah sits second to the left of Emily, who sits at the end of the row.

case1

case2

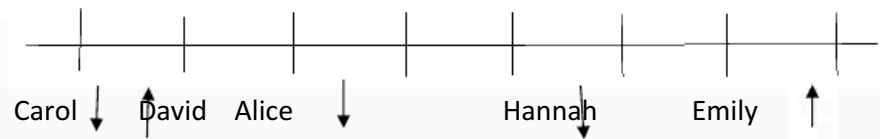

David sits to the immediate right of Alice, who faces the South. Carol sits second to the left of David, who faces the same direction as Emily. Hannah, who is not an immediate neighbor of Alice, faces the opposite direction of Emily.

case1

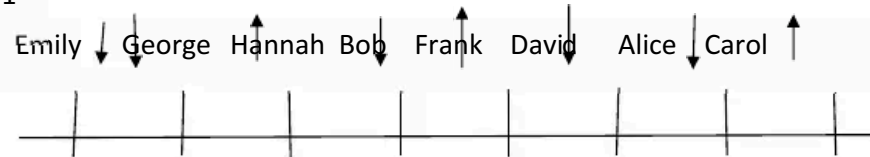

case2

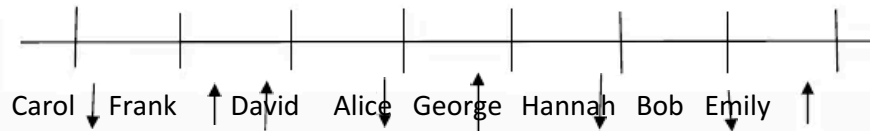

Frank, who is not a neighbor of Emily or Hannah, faces the opposite direction of Carol. Bob faces the South. George sits second to the right of Bob. Emily and George face the same direction. Carol and David do not face the same direction.

EduTap

case1

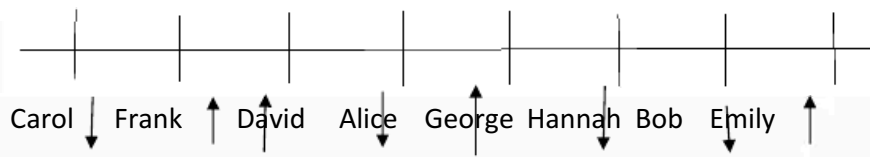

case2

Emily and George do not sit adjacent to each other. So, case 1 is canceled out.

Final solution:

case2

Q.29) Explanation

Hannah sits second to the left of Emily, who sits at the end of the row.

case1

case2

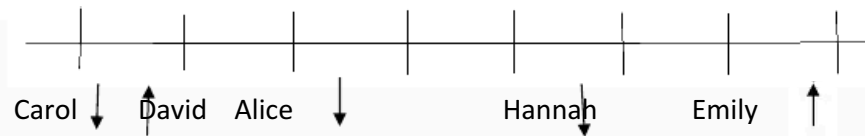

David sits to the immediate right of Alice, who faces the South. Carol sits second to the left of David, who faces the same direction as Emily. Hannah, who is not an immediate neighbor of Alice, faces the opposite direction of Emily.

case1

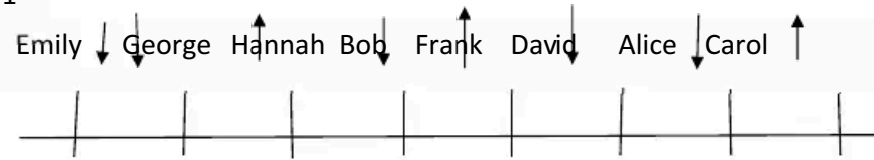

case2

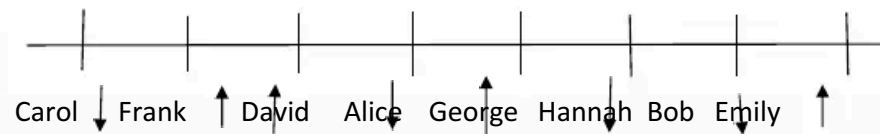

Frank, who is not a neighbor of Emily or Hannah, faces the opposite direction of Carol. Bob faces the South. George sits second to the right of Bob. Emily and George face the same direction. Carol and David do not face the same direction.

case1

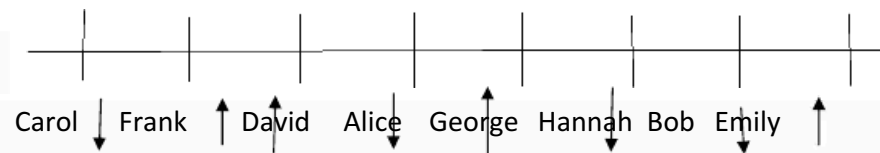

case2

Emily and George do not sit adjacent to each other. So, case 1 is canceled out.

Final solution:

case2

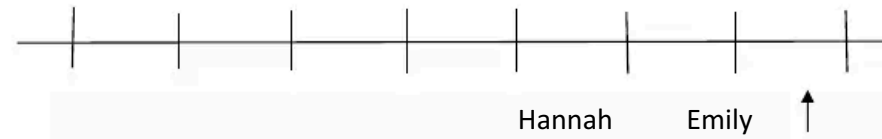

Q.30) Explanation

Hannah sits second to the left of Emily, who sits at the end of the row.

case1

case2

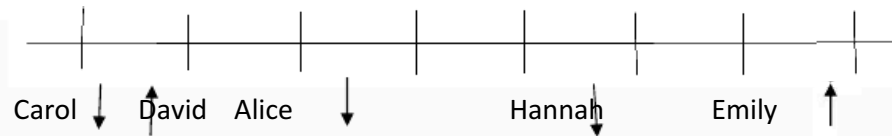

David sits to the immediate right of Alice, who faces the South. Carol sits second to the left of David, who faces the same direction as Emily. Hannah, who is not an immediate neighbor of Alice, faces the opposite direction of Emily.

case1

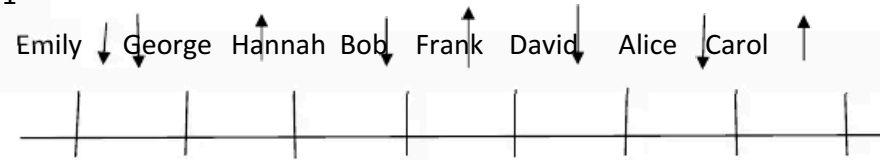

case2

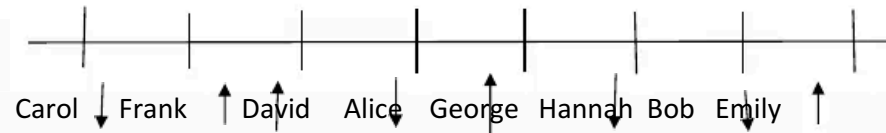

Frank, who is not a neighbor of Emily or Hannah, faces the opposite direction of Carol. Bob faces the South. George sits second to the right of Bob. Emily and George face the same direction. Carol and David do not face the same direction.

case1

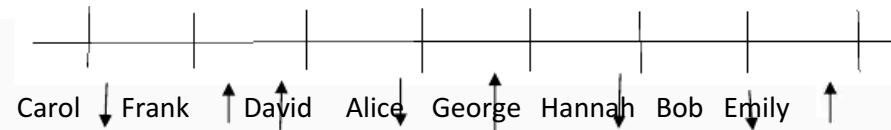

case2

Emily and George do not sit adjacent to each other. So, case 1 is canceled out.

Final solution:

case2

Q.31) Explanation

Z stays on an odd-numbered floor in Flat Alpha and two floors above R but in different flats. Two floors are between Y and M, who stays in Flat Beta on the topmost floor where both stay in the same flat.

	Case 1		case2	
Floor	Alpha	Beta	Alpha	Beta
5	Z	M		M

4				
3		R	Z	
2		Y		Y
1				R

Both X and S stay on the same floor, where S neither stays in the same flat as Z nor stays below Y. S stays above O, who stays on the adjacent floor of P. The number of floors above N is the same as the number of floors below Q. So, case 1 is canceled out

	Case 1		case2	
Floor	Alpha	Beta	Alpha	Beta
5	Z	M	Q	M
4	X	S	X	S
3		R	Z	P
2		Y	O	Y
1			N	R

Final solution:

	case2	
Floor	Alpha	Beta
5	Q	M
4	X	S

3	Z	P
2	O	Y
1	N	R

Q.32) Explanation

Z stays on an odd-numbered floor in Flat Alpha and two floors above R but in different flats. Two floors are between Y and M, who stays in Flat Beta on the topmost floor where both stay in the same flat.

	Case 1		case2	
Floor	Alpha	Beta	Alpha	Beta
5	Z	M		M
4				
3		R	Z	
2		Y		Y
1				R

Both X and S stay on the same floor, where S neither stays in the same flat as Z nor stays below Y. S stays above O, who stays on the adjacent floor of P. The number of floors above N is the same as the number of floors below Q. So, case 1 is canceled out

	Case 1		case2	
Floor	Alpha	Beta	Alpha	Beta
5	Z	M	Q	M
4	X	S	X	S

3		R	Z	P
2		Y	O	Y
1			N	R

Final solution:

	case2	
Floor	Alpha	Beta
5	Q	M
4	X	S
3	Z	P
2	O	Y
1	N	R

Q.33) Explanation

Z stays on an odd-numbered floor in Flat Alpha and two floors above R but in different flats. Two floors are between Y and M, who stays in Flat Beta on the topmost floor where both stay in the same flat.

	Case 1		case2	
Floor	Alpha	Beta	Alpha	Beta
5	Z	M		M
4				
3		R	Z	
2		Y		Y

1				R
---	--	--	--	---

Both X and S stay on the same floor, where S neither stays in the same flat as Z nor stays below Y. S stays above O, who stays on the adjacent floor of P. The number of floors above N is the same as the number of floors below Q. So, case 1 is canceled out

	Case 1		case2	
Floor	Alpha	Beta	Alpha	Beta
5	Z	M	Q	M
4	X	S	X	S
3		R	Z	P
2		Y	O	Y

	case2	
Floor	Alpha	Beta
5	Q	M
4	X	S
3	Z	P
2	O	Y
1	N	R

Q.36) Explanation

I. All bread are bad - false. We cannot say with surety that all bread are bad, possibility is true in this case

II. Some bad are butter - false. We know some the part of bad which is the part of cream can never be part of butter but remaining part of bad may or may not be part of butter so we cannot say with surety.

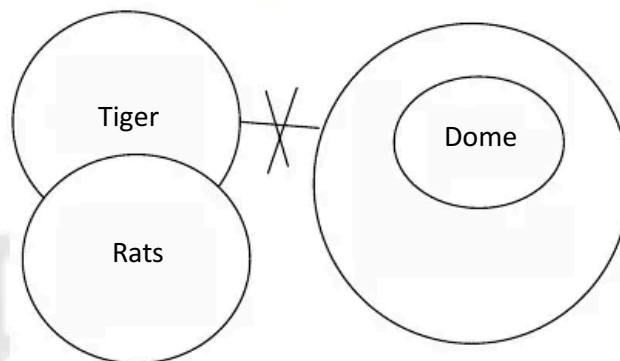

Q.37) Explanation

I. No black is green - true

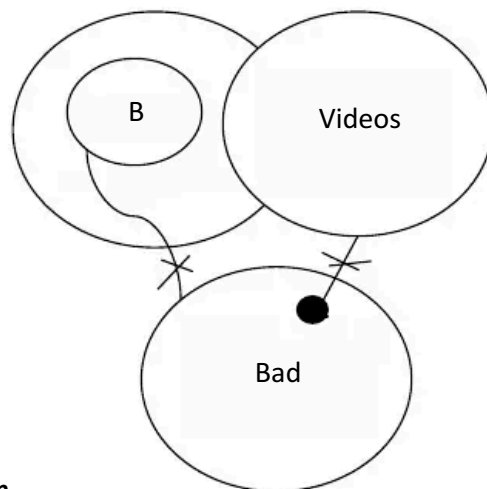

II. No plant is black - false. No definite relation between plant and black so we cannot say with surety.

Q.38) Explanation

I. No tiger is a rat - false. We know some tigers are rats and the remaining part of the tiger may or may not be part of a rat so we cannot say with certainty.

II. All dogs are definitely not tiger - true

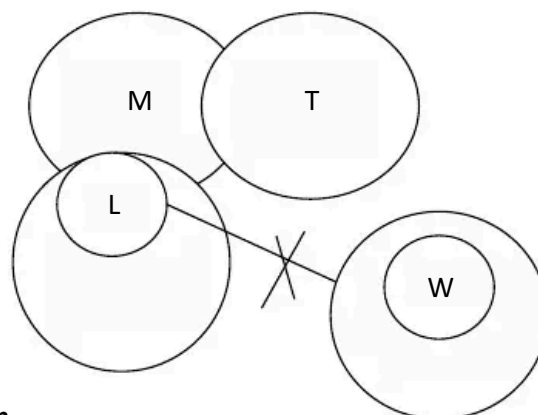

Q.39) Explanation

I. All bad being a book is a possibility - false

II. Some music is bad - false

III. All videos being music is a possibility - true. We know some videos are music and remaining part of videos may or may not be part of music so possibility is true

IV. Some books are videos - false. No definite relation between books and videos so we cannot say with surety.

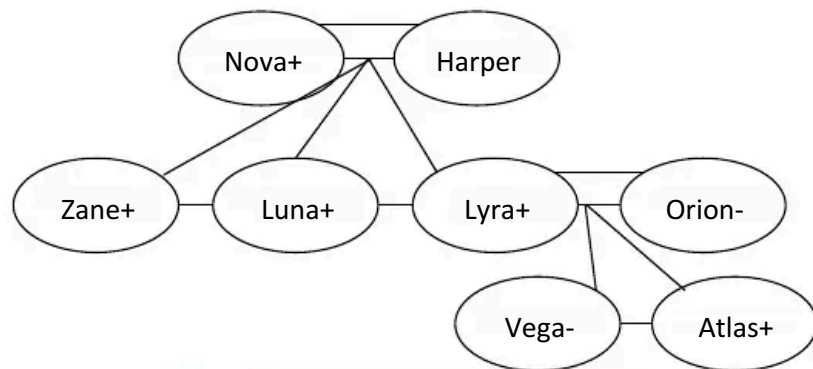

Q.40) Explanation

I. All metros can be humans - false. The part of metros which is the part of lucky can never be part of humans.

- II. Some lucky are trains - false. No definite relation between them
- III. Some great that are lucky being wise are a possibility - false
- IV. Some humans that are wise can be train - true. No definite relation so possibility is true

Q.41) Explanation

According to the information:

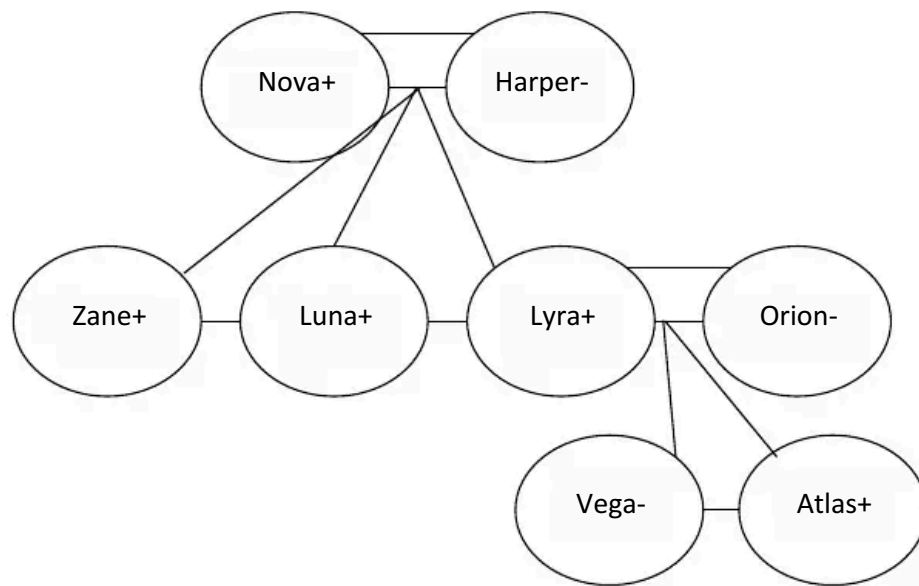

+	male
-	female
=	couple
	Generation gap
—	siblings

Orion is sister-in-law of Zara.

Q.42) Explanation

According to the information:

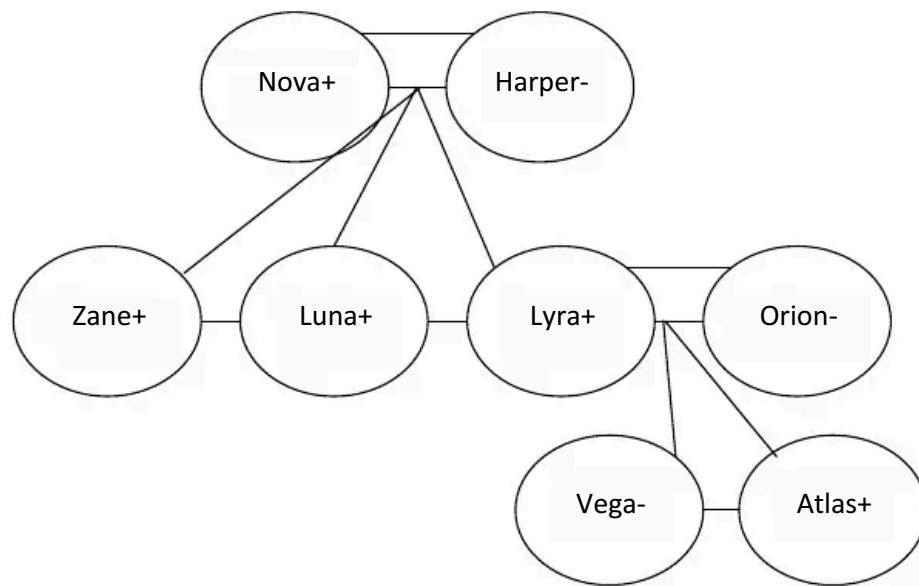

+	male
-	female
=	couple
	Generation gap
—	siblings

Luna is son of Harper.

Q.43) Explanation

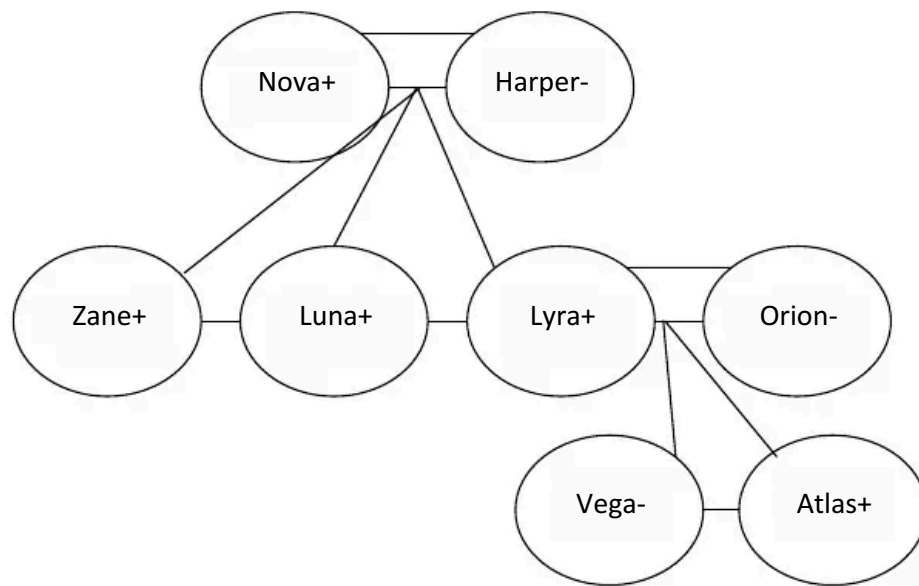

According to the information:

+	male
-	female
=	couple
	Generation gap
—	siblings

Q.44) Explanation

According to the information:

+	male
-	female
=	couple
	Generation gap
—	siblings

Q.45) Explanation

Only three performances happened between the performances of Ethan and Olivia, who performed on an even-numbered date of the month having only 30 days. Ethan's performance was immediately after that of Liam.

		case1	case2
Month	Date	Person	Person
June	12 th		Olivia

	23 rd	Liam	
July	12 th	Ethan	
	23 rd		Liam
August	12 th		Ethan
	23 rd		
September	12 th	Olivia	
	23 rd		
October	12 th		
	23 rd		

Olivia performed before Liam. Harper performed on an odd-numbered date of the month having 31 days but not in August. Three performances happened between the performances of Harper and Noah. So, case 1 is canceled out.

		case1(canceled)	case2

Q.50) Explanation

The second, fifth, sixth, and seventh letter of the word 'PERMUTATION' is E, U, T and A
No meaningful word is formed so, answer is Z

Q.51) Correct Answer: E. All of the above

Explanation: Refer to the following statement of the passage, "The long-term growth prospective of the Indian economy is positive due to its young population, corresponding low dependency ratio, healthy savings and investment rates, and increasing integration into the global economy." The correct answer is option E.

Q.52) Correct Answer: D. the Malabar and Coromandel Coasts

Explanation: Refer to the following statement of the passage, "Both the Malabar and Coromandel Coasts were the sites of important trading centres from as early as the first century BC, used for import and export as well as transit points between the Mediterranean region and southeast Asia." The correct answer is option D.

Q.53) Correct Answer: C. Economic liberalization

Explanation: Refer to the following statement of the passage, "Since 1991, continuing economic liberalisation has moved the country towards a market-based economy. The correct answer is option C.

Q.54) Correct Answer: B. Hindu temple in Azerbaijan

Explanation: Indian traders built a temple in Azerbaijan in the 17th century which points to the fact the commerce was profitable for them. Refer to the following statement of the passage, "During this period, Indian traders settled in Surakhani, a suburb of greater Baku, Azerbaijan. These traders built a Hindu temple, which suggests commerce was active and prosperous for Indians by the 17th century." The correct answer is option B.

Q.55) Correct Answer: A. Corruption

Explanation: Refer to the following statement of the passage, "The economy was then characterised by extensive regulation, protectionism, public ownership of large monopolies, pervasive corruption and slow growth." All of the above-mentioned problems have an effect on each other. It can be inferred that corruption has had a huge role to play in the slow growth of economy after British rule ended. The correct answer is option A.

Q.56) Correct Answer: D. Economy of India

Explanation: The passage talks about the Indian economy in its current state and how it came to be so the correct answer must be "economy of India". The correct option is D.

Q.57) Correct Answer: B. Thereafter

Explanation: Subsequently refers to something that has happened after a particular thing. Among the option there is only 'thereafter' that means the same. So the correct answer is option B.

Q.58) Correct Answer: D. Nepotism

Explanation: Patronage is the power to control appointments to office or the right to privileges and among the options only 'nepotism' means the same. So the correct answer is option D.

- Narcissistic means having or showing an excessive interest in or admiration of oneself and one's physical appearance.
- Decentralized means transfer (authority) from central to local government.
- Liberal means willing to respect or accept behaviour or opinions different from one's own; open to new ideas.

Q.59) Correct Answer: C. Tight Spot

Explanation: The context of the sentence makes it clear that the recent strike has put the company in a very difficult situation. The most appropriate idiom to depict this idea is “tight spot” which means being in a very difficult situation. The meanings of the other idioms are:

- Raptures – If you are in raptures about something, you are delighted or very enthusiastic.
- Mouse potato – It refers to a person who spends a lot of time in front of the computer.
- Much ado about nothing – It means making a lot of fuss about something which is not important.
- Warm potato is an incorrect phrase and the correct phrase is ‘hot potato’ which means a controversial issue or situation which is awkward to deal with.

Q.60) Correct Answer: A. Heart of the matter

Explanation: The context of the sentence makes it clear that one needs to know about the important part that caused the accident. The most appropriate idiom to depict this idea is “heart of the matter” which means the most important part or aspect of a situation. The meanings of the other idioms are:

- Last straw – the final problem in a series of problems
- Piece of cake – a job, task or other activity that is easy or simple
- Whole nine yards – everything; all of it
- Heart of the issue is an incorrect phrase

Q.61) Correct Answer: D. In the month of Sundays

Explanation: The context of the sentence makes it clear that one has not been to theatre for a long period. The most appropriate idiom to depict this idea is “month of Sundays” which means a long unspecified period.

The meanings of the other idioms are:

- In a long run – If you talk about what will happen in the long run, you are saying what you think will happen over a long period of time in the future.
- Best of both worlds – all the advantages
- Cry over spilt milk – when you complain about a loss from the past
- Method to my madness – an assertion that, despite one’s approach seeming random, there actually is structure to it

Q.62) Correct Answer: E. No correction required

Explanation: The context of the sentence makes it clear that getting job had no relevance with the playing golf. The most appropriate idiom to depict this idea is “beside the point”

which means not relatable to the topic or irrelevant.

The meanings of the other idioms are:

- Miss the boat – to miss a chance
- Drastic times call for drastic measures – when you are extremely desperate you need to take drastic actions.
- Keep something at bay – keep something away
- Miss the train is a not a relevant phrase

Q.63) Correct Answer: D. Bowing and scraping

Explanation: The context of the sentence makes it clear that the president was greeted with much politeness as the gesture was appreciated. The most appropriate idiom to depict this idea is “bowing and scraping” which means being excessively polite or servile.

The meanings of the other idioms are:

- Best of both worlds – all the advantages
- Brain drain – the departure of highly qualified people (scientists, engineers, etc.) for other countries, where they have better opportunities and usually better pay
- Ballpark figure – giving an approximate number or a rough estimate of the cost of something
- Brainwash - pressurize (someone) into adopting radically different beliefs by using systematic and often forcible means

Q.64) Correct Answer: B. Only I

Explanation: ‘Wander’ means walk or move in a leisurely or aimless way. Here, ‘thoughts wandering’ means the experience of thoughts not remaining on a single topic for a long period of time. ‘Wonder’ means a feeling of amazement and admiration, caused by something beautiful, remarkable, or unfamiliar. ‘Distracts’ means prevent (someone) from concentrating on something. And the form of the word is contextually inappropriate. Therefore, the word that correctly fits here is ‘wander’.

Q.65) Correct Answer: E. Both I & III

Explanation: To divert means to shift or turn from one thing to another. ‘Deviate’ means depart from an established course. ‘Distancing’ means make (someone or something) far off or remote in position or nature. Therefore, the words that correctly fit here are ‘deviating’ and ‘diverting’.

Q.66) Correct Answer: D. Both I & II

Explanation: ‘Obsessive’ and ‘Compulsive’ means the same i.e. resulting from or relating to an irresistible urge. ‘Narcotic’ means an addictive drug affecting mood or behavior, especially an illegal one. Therefore, the word that correctly fits here are ‘obsessive’ and ‘compulsive’.

Q.67) Correct Answer: D. Both I & II

Explanation: The sentence mentions about someone's belief. Thus, the correct words which fit in the blank are "firm" and "confident". "Firm" means strongly felt and unlikely to change. "Confident" means feeling or showing certainty about something. "Hasten" means to be quick to do something which is absurd in this context. Therefore, the correct option is D.

Q.68) Correct Answer: E. All I, II & III

Explanation: "resolved" means firmly determined to do something. "Decided" means to come or bring to a resolution in the mind as a result of consideration. "Concluded" means to arrive at a judgement or opinion by reasoning. All the three words fit into the blank properly.

Q.69) Correct Answer: B. Only II

Explanation: 'Women' in the second part is a generalization. It is not pointing towards a particular person. Thus, 'the' is not needed before it making part II incorrect. This makes option B the correct answer.

Q.70) Correct Answer: A. Only I

Explanation: The comparative adjectives inferior, superior, senior, junior, prior etc. take the preposition 'to', not 'than'. Note that to express a comparison, it's 'superior to.' To express excellence in a field, it's 'superior in.' And 'superior than' must not be used as it is incorrect. Thus, the error lies in part I of the sentence making option A the correct answer.

Q.71) Correct Answer: E. Both I & II

Explanation: In part I of the sentence there is an error in the order of the adjectives used to describe the palace. As per the order of adjectives, the adjective describing the quality (beautiful) should come before the adjective describing size (big). Again, in part II of the sentence, 'gave' the past form of 'give' has been used. Since the sentence part is in passive form, the word 'given' should be used. This makes option E the correct answer.

Q.72) Correct Answer: C. Only III

Explanation: The adverb 'enough' cannot be modified by the adverb 'very'. Thus, the error lies in part III of the sentence making option C the correct answer.

Q.73) Correct Answer: D. Both II & III

Explanation: The given sentence has error in two parts. Part I the use of gerund 'bursting' is incorrect. After the use of 'will' in future tense, we need to have the base form of the verb. So, it will be 'burst' and not 'bursting'.

In part III 'farther' has been used incorrectly. 'Farther' is used for physical distance and since the context requires a metaphorical sense, 'further' should be used. Hence, the sentence has errors in part II and III, making option D the correct answer.

Q.74) Correct Answer: A. B-E and C-F

Explanation: We have to join two parts of a sentence in a way that they form a meaningful and grammatically correct sentence.

In part A, as we can see the part ends with 'either', which means the succeeding part of the sentence will provide two alternatives connected by the conjunction "or". Also, the part will start with the proportion "by" to introduce the means by which the company will try to get back the value invested in the schemes. Only part D starts with 'by', but since the alternatives have been connected by the conjunction 'and' the two parts when connected will not make a correct sentence.

In part B, the part ends with 'to' which will take the verb in base form to complete the 'to-infinitive' structure. Here only part E fulfils that criterion. It connects with part B contextually as well.

In part C, the part ends with the adjective 'horrifying' so we need a noun. Only part F fulfils that and thus when connected with part C will make a meaningful sentence.

Q.75) Correct Answer E. A-D and C-E

Explanation: We have to join two parts of a sentence in a way that they form a meaningful and grammatically correct sentence.

In part A, it says 'Movianto temporarily stored' and part D tells what was stored (the object of the verb 'stored'). So A-D fits perfectly.

Part B ends with the auxiliary verb 'was' and to maintain the passive structure, needs to be followed by past participle form of a verb. Only Part F starts with a verb, but it is in the base form. So, B and F when joined will make a grammatically incorrect sentence.

Part E starts with the relative adverb 'where' (used after reference to a place or situation). Part C provides the place to which the adverb 'where' refers. So, C-E will make a meaningful sentence.

Therefore, option E will be the correct choice here

Section – General Awareness

Q.76)

Answer- Option D

Explanation:

SEBI imposed a penalty of **₹6 lakh** on Multi Commodity Exchange (MCX) for flouting norms in case of data entries of Sikkim-based clients. It relates to incorrect input of State code and City code as Sikkim by 7 trading members of MCX in Unique Client Code database. SEBI found that MCX imposed a penalty of Rs 10,000 per client on these trading members for wrong entries in June 2022.

Hence, option D is the correct answer.

Q.77)

Answer- Option A

Explanation:

A total of **2,672 complaints** against companies and market intermediaries received through capital markets regulator Sebi's SCORES platform was disposed of in February, according to Sebi data.
