

IFSCA Grade A 2023 Phase 1 – Paper 1 Recollected Questions

Quantitative Aptitude

Directions (1-5): What is the approximate value should come in place of question mark in the following questions?

Q1. $37.5\% \text{ of } 239.90 + \sqrt{99.99} = ?$

- A. 100
- B. 600
- C. 500
- D. 400
- E. 200

Q2. $840.98 \div 28.99 + ? = 112.08$

- A. 73
- B. 83
- C. 53
- D. 63
- E. 43

Q3. $14.98 \times 8.04 + 21.07 \times 30.05 = ?$

- A. 675
- B. 900
- C. 600
- D. 780
- E. 750

Q4. $1653.04 \div 57.01 \times 39.93 = ? + 19.98$

- A. 1185
- B. 1260
- C. 1140
- D. 1050
- E. 1035

Q5. $18.95 \times \sqrt{224.95} = ? \times \sqrt{25.03}$

- A. 63
- B. 69
- C. 57
- D. 42
- E. 60

Q6. Ratio of the speed of the car to bike is 4:3 and the bike travels 40 km less than the car in the same time duration. What is the distance travelled by car during that time?

- A. 120 km
- B. 140 km
- C. 160 km
- D. 180 km
- E. None of these

Q7. A shopkeeper bought two articles A and B such that he had a Profit of 15% and 20% on selling article, A and B respectively. Selling price of articles, A and B is Rs.230 and Rs.420 respectively. At what price must that items be sold together in order to gain 30%?

- A. Rs.686
- B. Rs.695
- C. Rs.700
- D. Rs.740
- E. None of these

Q8. A boat can travel 90 km upstream and 120 km downstream in 12 hours 30 minutes. What is the speed of the stream, if the boat can travel 60 km downstream in 2 hours 30 minutes?

- A. 5 kmph
- B. 6 kmph
- C. 8 kmph
- D. 10 kmph
- E. None of these

Q9. If the product of the present ages of A and B is 864 and the ratio of the ages of A to B is 2:3, then what is A's age after 20 years?

- A. 40 years
- B. 44 years
- C. 48 years
- D. 52 years
- E. None of these

Q10. A milkman has the mixture of milk and water in the ratio of 3:2. When he sold 20 Liters of the mixture and then added 5 litres of water, then the ratio of the milk to water becomes 8: 7. Find the initial quantity of the mixture?

- A. 45 L
- B. 30 L
- C. 60 L
- D. 24 L

E. None of these

Directions (11-15): The following question contains two equations as I and II. You have to solve both equations and determine the relationship between them and give the answer as,

Q11. (I) $x^2 - 10x - 24 = 0$

(II) $y^2 + 4y + 4 = 0$

- A. $x > y$
- B. $x \geq y$
- C. $x = y$ or relationship can't be determined
- D. $x < y$
- E. $x \leq y$.

Q12. (I) $x^2 - 17x + 52 = 0$

(II) $y^2 - 14y + 45 = 0$

- A. $x = y$ or relationship cannot be determined
- B. $x \geq y$
- C. $x < y$
- D. $x > y$
- E. $x \leq y$

Q13. (I) $x^2 - 25x + 84 = 0$

(II) $y^2 - 28y + 147 = 0$

- A. $x = y$ or relationship cannot be determined
- B. $x \geq y$
- C. $x < y$
- D. $x > y$
- E. $x \leq y$

Q14. (I) $x^2 - 5x + 6 = 0$

(II) $y^2 - 8y + 15 = 0$

- A. $x > y$
- B. $x \geq y$
- C. $x = y$ or relationship can't be determined
- D. $x < y$
- E. $x \leq y$

Q15. $x^2 - 8x + 15 = 0$

(II) $y^2 + y - 12 = 0$

- A. $x > y$
- B. $x \geq y$
- C. $x = y$ or relationship can't be determined
- D. $x < y$
- E. $x \leq y$

Directions (16-20): Read the following information carefully and answer the questions. The given pie chart shows the percentage distribution of total number of orders delivered by Amazon in five different years i.e., 2001, 2002, 2003, 2004 and 2005.

Total number of orders delivered=600

Q16. Total number of orders delivered in 2005 is how much more/less than total number of orders delivered in 2002?

- A. 120 more
- B. 150 less
- C. 100 more
- D. 180 less
- E. None of these.

Q17. Find the ratio of total number of orders delivered in 2001 and total number of orders delivered in 2004?

- A. 7:4
- B. 3:5
- C. 1:2
- D. 5:4
- E. None of these

Q18. Total number of orders delivered in 2003 is what percentage of total number of orders delivered in 2001?

- A. 30%
- B. 15%
- C. 60%
- D. 25%
- E. None of these

Q19. Find the difference between the total number of orders delivered in 2003 and total number of orders delivered in 2005?

- A. 70
- B. 90
- C. 50
- D. 80
- E. None of these

Q20. If the ratio of number of orders delivered in 2002 and 2006 is 3:5 and then find the average number of orders delivered in 2004 and 2006 together?

- A. 150
- B. 170
- C. 110
- D. 190
- E. None of these.

Q21. A can complete the work in 18 days and A and B together can complete the half of the work in 6 days. C is 20% more efficiency than B. In how many days A, B and C together can complete the 84% of the work?

- A. 6.5 days
- B. 7.2 days
- C. 8.1 days
- D. 4.5 days
- E. None of these.

Q22. There are three sections (A, B and C) in class 6. The average marks scored by 25 students in Section A is 42, average marks scored by 20 students of section B is 39 and average marks scored by 15 students of section C is 30. Find the average of marks of students of 3 sections of class 6?

- A. 36
- B. 38
- C. 34
- D. 32

E. 40

Q23. In a bank examination, the number of passed candidates was five times the number of failed candidates. If there had been 40 less candidates appeared and 20 more candidates had failed, then the ratio of passed and failed candidates would have been 3: 1. Then find the total number of failed candidates in the bank examination.

- A. 70
- B. 60
- C. 50
- D. 300
- E. None of these

Q24. A wire is looped in the form of rectangle whose area is 96 cm^2 and the ratio of the length to breadth of the rectangle is 3:2. If the same wire is looped in the form of circle, what is the area of the circle?

- A. $1400/11 \text{ cm}^2$
- B. $1300/11 \text{ cm}^2$
- C. $1500/11 \text{ cm}^2$
- D. $1200/11 \text{ cm}^2$
- E. None of these

Q25. Three pipes A, B and C can fill a tank in 12 hours. After working at it together for 3 hours, C is closed and A and B can fill the remaining part of the tank in 15 hours. How much time will the pipe C alone taken to fill the tank?

- A. 24 hours
- B. 26 hours
- C. 32 hours
- D. 30 hours
- E. None of these.

Logical Reasoning

Directions (26-30): Answer the questions based on the information given below.

Eight persons Alice, Bob, Carol, David, Emily, Frank, George, and Hannah are seated in a linear row, some of them are facing North while others are facing South. Hannah sits second to the left of Emily, who sits at the end of the row. David sits to the immediate right of Alice, who faces the South. Carol sits second to the left of David, who faces the same direction as Emily. Hannah, who is not an immediate neighbor of Alice, faces the opposite direction of Emily. Frank, who is not a neighbor of Emily or Hannah, faces the opposite direction of Carol. Bob faces the South. George sits second to the right of Bob. Emily and George face the same direction. Carol and David do not face the same direction. Emily and George do not sit adjacent to each other

Q26. Who sits immediate right of G?

- A. Carol
- B. Frank
- C. Hannah
- D. David
- E. George

Q27. Which one sits at one end of the row?

- A. David
- B. Bob
- C. Frank
- D. Carol
- E. None of these

Q28. How many people are facing south in a row?

- A. four
- B. two
- C. one
- D. five
- E. three.

Q29. Who faces the same direction as Emily?

- A. Alice
- B. Frank
- C. Hannah
- D. Carol
- E. Bob

Q30. Who is an immediate neighbor of Alice?

- A. Emily
- B. Carol
- C. Frank
- D. George
- E. Bob

Directions (31–35): Answer the questions based on the information given below.

Ten persons, X, Y, Z, M, N, O, P, Q, R, and S, are staying in two different flats, namely Flat Alpha and Flat Beta, in a five-storey building. The lowermost floor is numbered as 1, and the floor immediately above it is numbered as 2, and so on.

Z stays on an odd-numbered floor in Flat Alpha and two floors above R but in different flats. Two floors are between Y and M, who stays in Flat Beta on the topmost floor where both stay in the same flat. Both X and S stay on the same floor, where S neither stays in the same flat as Z nor stays below Y. The number of floors above N is the same as the number of floors below Q. S stays above O, who stays on the adjacent floor of P.

Q31. Who among the following person stays immediately above N?

- A. The one who stays immediately below X
- B. S
- C. R
- D. The one who stays west of Y
- E. None of these

Q32. On which of the following floor and flat does P stay?

- A. Flat Beta, floor 3
- B. Flat Alpha, floor 2
- C. Flat Beta, floor 1
- D. Flat Alpha, floor 5
- E. Flat Beta, floor 4

Q33. Four of the following five are alike in a certain way as per the given arrangement and hence form a group. Find the one who doesn't belong to that group

- A. Q
- B. N
- C. Z
- D. P
- E. X

Q34. What is the position of Z with respect to N?

- A. Two floors above
- B. Immediately below
- C. Three floors above
- D. Immediately above
- E. None of these.

Q35. How many floors are between Q and O?

- A. One
- B. three
- C. two
- D. More than three
- E. As many floors between Y and R

Directions (36-40): Study the following statements and decide which of the given conclusions logically follows from the given statements disregarding the commonly known facts.

Q36. Statements:

All bread is butter.

No butter is cream.

All cream is bad.

Conclusions:

I. All bread are bad

II. Some bad are butter

- A. If only conclusion I follow
- B. If only conclusion II follow
- C. If neither conclusion I nor conclusion II follows
- D. If both the conclusions follow
- E. If either conclusion I or conclusion II follows

Q37. Statements:

A few plants are not green.

All green are colorful.

No colorful is black.

Conclusions:

I. No black is green.

II. No plant is black

- A. If only conclusion I follow
- B. If only conclusion II follow
- C. If neither conclusion I nor conclusion II follows
- D. If both the conclusions follow

E. If either conclusion I or conclusion II follows

Q38. Statements:

No tiger is a dog.

Some rats are tigers.

All domestic are dogs.

Conclusions:

I. No tiger is a rat.

II. All dogs are definitely not tigers.

A. If only conclusion I follow

B. If only conclusion II follow

C. If neither conclusion I nor conclusion II follows

D. If both the conclusions follow

E. If either conclusion I or conclusion II follows

Q39. Statements:

Some music is videos.

No book is bad.

All books are music.

Some bad are not videos.

Conclusions:

I. All bad being a book is a possibility.

II. Some music is bad.

III. All videos being music is a possibility.

IV. Some books are videos

A. If only conclusion I follow

B. If only conclusion III follow

C. If only Conclusion I, II, IV follow

D. If both the conclusions I and IV follow

E. None follows

Q40. Statements:

Some metros are trains.

Some metros are lucky.

All lucky is great.

No human is lucky.

All wise are humans.

Conclusions:

I: All metros can be humans.

II: Some lucky are trains

III: Some great that are lucky being wise are a possibility.

IV: Some humans that are wise can be trains

- A. If only conclusion I follow
- B. If only conclusion II follow
- C. If only Conclusion I, II, IV follow
- D. If only conclusion III, IV follow
- E. If only IV follows

Directions (41-44): Answer the questions based on the information given below.

Eight persons – Harper, Zane, Nova, Orion, Luna, Atlas, Vega, and Lyra – consist of a family of three generations. There are three females and two married couples in the family. For every person in the family, either both or none of the parents are alive.

Zane's sister-in-law is the mother of Atlas. Vega is an unmarried female. Atlas's mother doesn't have any siblings. Harper is the mother-in-law of Orion, who is the mother of two children. Nova is the grandfather of Atlas, who is the nephew of Luna.

Q41. Who is the sister-in-law of Zane?

- A. Luna
- B. Veg
- C. Orion
- D. Harper
- E. None of these

Q42. How is Luna related to Harper?

- A. Daughter
- B. Son
- C. daughter-in-law
- D. nephew
- E. cannot be determined

Q43. Who is the husband of Orion?

- A. Zane
- B. Luna
- C. Lyra
- D. Nova
- E. Atlas

Q44. How many children does Lyra have?

- A. None
- B. Three
- C. One
- D. Two
- E. None of these

Direction(45-49): Study the information carefully and study the following question.

10 persons Ethan, Olivia, Rohan, Liam, Norah, Mia, Harper, Isabella, Daniel and Ava performed in a competition on 12th and 23rd of each month among June, July, August, September and October such that only one person performed on a date of a month.

Mia and Liam performed on the same dates but in different months. Ethan's performance was immediately after that of Liam. Only three performances happened between the performances of Ethan and Olivia, who performed on an even-numbered date of the month having only 30 days. Olivia performed before Liam. Four performances happened in between the performances of Ava and Mia. Harper performed on an odd-numbered date of the month having 31 days but not in August. Three performances happened between the performances of Harper and Noah. Daniel and Isabella performed on consecutive turns but in different months. Daniel did not perform in a month whose total number of days is even.

Q45. How many performances happened between the performances of Daniel and Harper?

- A. Two
- B. Four
- C. None
- D. One
- E. three

Q46. In which month did Harper inform?

- A. June
- B. October
- C. September
- D. July
- E. None of these.

Q47. Who performed immediately after Noah?

- A. Harper
- B. Ethan
- C. Isabella
- D. Ava
- E. Mia

Q48. How many persons performed before Olivia?

- A. three
- B. four
- C. one
- D. none
- E. two

Q49. Find the odd one out?

- A. Ava
- B. Harper
- C. Noah
- D. Liam
- E. Mia

Q50. If it is possible to make a meaningful word without repetition of the letter with the second, fifth, sixth and seventh letter of the word 'PERMUTATION' which would be the second letter of the word from right. If more than one such word can be formed, give X as the answer. If no such word is formed, give Z as the answer?

- A. E
- B. U
- C. A
- D. X
- E. Z

General English

Instructions (51-56): The economy of India is the sixth-largest in the world measured by nominal GDP and the third-largest by purchasing power parity (PPP). The country is classified as a newly industrialised country, and one of the G-20 major economies, with an average growth rate of approximately 7% over the last two decades. India's economy became the world's fastest growing major economy in the last quarter of 2014, surpassing the People's Republic of China. However, the country ranks 141st in per capita GDP (nominal) with \$1723 and 123rd in per capita GDP (PPP) with \$6,616 as of 2016.

The long-term growth prospective of the Indian economy is positive due to its young population, corresponding low dependency ratio, healthy savings and investment rates, and increasing integration into the global economy. India topped the World Bank's growth outlook for the first time in fiscal year 2015–16, during which the economy grew 7.6%. Growth is expected to have declined slightly to 7.1% for the 2016–17 fiscal year. According to the IMF, India's growth is expected to rebound to 7.2% in the 2017–18 fiscal and 7.7% in 2018–19. The combination of protectionist, import-substitution, Fabian socialism, and social democratic-inspired policies governed India for some time after the end of British occupation. The economy was then characterised by extensive regulation, protectionism, public ownership of large monopolies, pervasive corruption and slow growth. Since 1991, continuing economic liberalisation has moved the country towards a market-based economy. By 2008, India had established itself as one of the world's fastest-growing economies.

The citizens of the Indus Valley Civilisation, a permanent settlement that flourished between 2800 BC and 1800 BC, practised agriculture, domesticated animals, used uniform weights and measures, made tools and weapons, and traded with other cities. Evidence of well-planned streets, a drainage system and water supply reveals their knowledge of urban planning, which included the first-known urban sanitation systems and the existence of a form of municipal government.

Maritime trade was carried out extensively between South India and Southeast and West Asia from early times until around the fourteenth century AD. Both the Malabar and Coromandel Coasts were the sites of important trading centres from as early as the first century BC, used for import and export as well as transit points between the Mediterranean region and Southeast Asia. Over time, traders organised themselves into associations which received state patronage. Historians Tapan Raychaudhuri and Irfan Habib claim this state patronage for overseas trade came to an end by the thirteenth century AD, when it was largely taken over by the local Parsi, Jewish, Syrian Christian and Muslim communities, initially on the Malabar and subsequently on the Coromandel Coast. Other scholars suggest trading from India to West Asia and Eastern Europe was active between the 14th and 18th centuries. During this period, Indian traders settled in Surakhani, a suburb of greater Baku, Azerbaijan. These traders built a Hindu temple, which suggests commerce was active and prosperous for Indians by the 17th century.

Q51. Which of these is the reason for the positive long term growth prospective of the Indian economy?

- A. young population
- B. corresponding low dependency ratio
- C. healthy savings and investment rates
- D. increasing integration into the global economy
- E. All of the above

Q52. Which sites were used as transit points between the Mediterranean region and Southeast Asia in the 14th century AD?

- A. Andaman and Nicobar Islands
- B. New Delhi
- C. Burma coast
- D. the Malabar and Coromandel Coasts
- E. Port Blair

Q53. According to the above passage, which of the following have moved India towards a market-based economy?

- A. Capitalism
- B. Socialism
- C. Economic liberalization
- D. Demonetization
- E. Centralization of banks

Q54. According to the passage, which historic evidence suggest that commerce Indians had active and prosperous commerce in the 17th century?

- A. The ruins of Indus valley civilization
- B. Hindu temple in Azerbaijan
- C. The Taj Mahal
- D. Involvement of Indian soldiers in world war 2
- E. None of these

Q55. According to the passage which of the following was a catalyst for slow economic growth after the end of British occupation?

- A. Corruption
- B. Demonetization
- C. Floods
- D. Communism
- E. None of these

Q56. On the basis of your reading choose an appropriate title for the passage.

- A. Communism in India
- B. End of poverty in Indian
- C. Indian economy in tatters
- D. Economy of India
- E. None of these

Q57. Choose the word/group of words which is MOST SIMILAR to the word/group of words printed in bold as used in the passage.

SUBSEQUENTLY

- A. Previously
- B. Thereafter
- C. Alarmingly
- D. Diseased
- E. None of these

Q58. Choose the word/group of words which is MOST SIMILAR to the word/group of words printed in bold as used in the passage.

PATRONAGE

- A. Liberal
- B. Narcissistic
- C. Decentralized
- D. Nepotism
- E. Colony

Direction (59-63): In the given question, a part of the sentence is printed in bold. Below the sentence alternatives to the bold part are given at (A), (B), (C) and (D) which may help improve the sentence. Choose the correct alternative. In case the given sentence is correct, your answer is (E) i.e., 'No correction required'.

Q59. The recent strike has put the airline company in a **mouse potato**.

- A. Raptures
- B. Warm Potato
- C. Tight Spot
- D. Much ado about nothing
- E. No correction required

Q60. We need to get to the **last straw** – and know what caused the accident.

- A. Heart of the matter
- B. Piece of cake
- C. Whole nine yards
- D. Heart of the issue

E. No correction required

Q61. I haven't been to the theatre in a **long run**.

- A. Best of both worlds
- B. Method to my madness
- C. Cry over spilt milk
- D. In the month of Sundays
- E. None of these

Q62. We need to know if he's qualified for the job. The fact that he plays golf is **beside the point**.

- A. Miss the boat
- B. Keeping something at bay
- C. Drastic times call for drastic measures
- D. Miss the train
- E. No correction required

Q63. The president was greeted with **much brainwash**, a gesture that was appreciated by the whole global community.

- A. Best of both worlds
- B. Brain drain
- C. Ballpark figure
- D. Bowing and scraping
- E. No correction required

Direction: In the given question, a statement with a blank has been given, followed by three words out of which more than one can complete the sentence grammatically and contextually. Find the word (s) which can fill the blank and choose the option accordingly.

Q64. Thoughts may , but it's within your power to return to your focus to a religious icon, a helpful saying, or the simple rise and fall of your chest.

I) Wander

II) Wonder

III) Distracts.

- A. Only II
- B. Only I
- C. Only III
- D. Both I & II
- E. Both I & III

Q65. Distraction is the process of _____ the attention of an individual or group from a desired area of focus and thereby blocking or diminishing the reception of desired information.

- I) Diverting**
- II) Distancing**
- III) Deviating**

- A. Only II
- B. Only I
- C. Only III
- D. Both I & II
- E. Both I & III

Q66. _____ web surfing, watching videos, playing games, or checking news feeds can lead to lower productivity at work or school and isolate you for hours at a time.

- I) Compulsive**
- II) Obsessive**
- III) Narcotic**

- A. Only II
- B. Only I
- C. Only III
- D. Both I & II
- E. Both I & III

Q67. Mr K.C. Paul is _____ in his belief that the sun is spinning around the earth.

- I) Firm**
- II) Confident**
- III) Hasten.**

- A. Only II
- B. Only I
- C. Only III
- D. Both I & II
- E. Both III & II

Q68. After much thought, Manisha _____ not to travel abroad this summer.

- I) resolved**
- II) decided**
- III) concluded.**

- A. Only II
- B. Only I
- C. Only III
- D. Both I & II
- E. All I, II & III

Direction: A sentence divided into three parts (I, II and III) is given. There may be an error in one or more parts. Determine the part(s) which requires correction and mark the relevant option as your answer.

Q69. Literature often has a tendency to portray (I)/ the women as either the good protagonist or the villain, (II)/ but in reality, women are mostly grey by nature. (III).

- A. Only I
- B. Only II
- C. Only III
- D. Both I & III
- E. Both II & II

Q70. Can the French be so enormously superior than (I)/ us that when we had surrounded them with superior forces, (II)/ we could not beat them?(III).

- A. Only I
- B. Only II
- C. Only III
- D. Both I & III
- E. Both II & II

Q71. One night he left the big, beautiful palace (I)/ which his father had gave to him and went out into the world (II)/ to do good and to help his fellow men. (III).

- A. Only I
- B. Only II
- C. Only III
- D. Both I & III
- E. Both I & II

Q72. Miss Sullivan and others who live constantly with the deaf (I)/ can spell very rapidly - fast enough to get a slow lecture, (II)/ but not very enough to get every word of a rapid speaker. (III).

- A. Only I
- B. Only II
- C. Only III
- D. Both I & III
- E. Both I & II

Q73. Majority of the Delhites, alarmed by the recent events are saying that (I)/ they will not bursting crackers and (II)/ farther pollute the environment which is harming their progeny the most. (III).

- A. Only I
- B. Only II
- C. Only III
- D. Both II & III
- E. Both I & II

Direction: In this question, two columns, I and II and three sentences are given, which are divided into two parts. Column I (A, B and C) consists of the first half of each sentence and Column II (D, E and F) consists of the second half of each sentence. Match column I with column II, so that the sentences formed are both meaningful and grammatically correct. Choose the option as your answer.

Q74.

I.

- A) The company will now attempt to get back the value invested in those schemes either
- B) After an organized abandonment of the unorganized workforce, the employers want the state t
- C) What we are witnessing today bears a horrifying

II.

- D) by selling the underlying assets and waiting for them to reach maturity.
- E) reintroduce laissez-faire and a system of indenture for the organized workforce too.
- F) resemblance to what happened over 150 years ago in British India.

- A. B-E and C-F
- B. C-E
- C. A-F and C-E
- D. B-F and C-D
- E. A-D

Q75.

I.

- A) The investigation established that Movianto had temporarily stored
- B) Amid complaints of dire shortages in hospitals, the company was
- C) The stockpile was relocated to a warehouse in Merseyside,

II.
